1 Items discussed and decisions made

Item	Decision (if applicable)
Yahoo Finance returns different results based on same sorting	Skip it. 200 companies is enough
Some data based on yearly, monthly, daily, which is hard to compare or find relation	One side investigate climate data The other side investigate share price
Suggested options from Client: <ol style="list-style-type: none"> 1. Use return of share price, which can be compared between different companies 2. See correlation between different types of companies 	
Train data and test data	Using US data to build model and test it by using AU data
How to evaluate the whole data	<ol style="list-style-type: none"> 1. Make assumptions 2. Correlation: investigate all possibilities and understand data 3. Reading papers
